Re: Freshwater Wetland Re-Validation, Wetland B-58
TMP #: 247.-1-34
Town of Charlton, Saratoga County

Dear Kevin:

As a follow up to our conversation on August 16, 2022, DEC is satisfied by the wetland boundaries shown on the wetland delineation map entitled "NYS DEC Validation of Lands of Mancini TMP # 247.-1-34," dated June 21st, 2022. The wetland boundary on this map accurately depicts the limits of Freshwater Wetland B-58 as verified by the Department of Environmental Conservation (DEC) in June 2022. Therefore, the wetland boundary on the above-referenced map is still in effect as shown. Consequently, all planned activities associated with the four lot subdivision are outside of DEC jurisdiction, and no Article 24 Freshwater Wetland permit will be necessary.

The wetland boundary validated by the DEC remains valid for five years from the original validation. For official use of the wetland boundary after this five-year period, the boundary must be re-validated by DEC staff. This may include additional flagging and survey of the wetland boundary if changes are noted.

If you have any questions regarding the above-referenced project as it related to the DEC freshwater wetland regulations, please contact me at (518) 623-1241. If you have any questions regarding permitting, please contact the Division of Environmental Permits at (518) 623-1200.

Sincerely,

Jed Hayden
