### Short Environmental Assessment Form Part 1 - Project Information

#### **Instructions for Completing**

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

		<del> </del>			
Part 1 - Project and Sponsor Information					
Name of Action or Project:					-
Project Location (describe, and attach a location map):		. ***			
Brief Description of Proposed Action:					····
Name of Applicant or Sponsor:	Telep	hone:		<u>.                                    </u>	
	E-Ma				····
Address:					
City/PO:		State:	Zip	Code:	
1. Does the proposed action only involve the legislative adoption of a plan, le	ocal lav	v. ordinance	<u> </u>	NO	YES
administrative rule, or regulation?					r=-
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.					
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? NO YES				YES	
If Yes, list agency(s) name and permit or approval:			ŀ		
			ļ.		
3.a. Total acreage of the site of the proposed action? acres b. Total acreage to be physically disturbed? acres					
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?acres					
	-				
4. Check all land uses that occur on, adjoining and near the proposed action.  Urban Rural (non-agriculture) Industrial Commercial Residential (suburban)					
	specify	):	,		
Parkland					

5. Is the proposed action, a. A permitted use under the zoning regulations?	NO	YES	N/A
b. Consistent with the adopted comprehensive plan?	H		
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES
			<u> </u>
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental A If Yes, identify:	rea?	NO	YES
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES
h Ara public transportation compica(s) available at an area the site of the assured extinct		<u> </u>	
b. Are public transportation service(s) available at or near the site of the proposed action?			
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed ac	tion?		
9. Does the proposed action meet or exceed the state energy code requirements?  If the proposed action will exceed requirements, describe design features and technologies:		NO	YES
The proposed detail will exceed requirements, describe design reductes and technologies.			
10. Will the proposed action connect to an existing public/private water supply?		NO	YES
			1123
If No, describe method for providing potable water:			
11. Will the proposed action connect to existing wastewater utilities?		NO	YES
If No, describe method for providing wastewater treatment:			
11 10, describe memod for providing wastewater deadners.		Ш	
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic		NO	YES
Places?  b. Is the proposed action located in an archeological sensitive area?			
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	n	NO	YES
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?			計
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:	—		<u> </u>
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check a		pply:	
☐ Shoreline ☐ Forest ☐ Agricultural/grasslands ☐ Early mid-successi☐ Wetland ☐ Urban ☐ Suburban	onal		
		37.0	-
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?		NO	YES
		<u> </u>	
16. Is the project site located in the 100 year flood plain?		NO	YES
17. Will the proposed action create storm water discharge, either from point or non-point sources?		NO	YES
If Yes, a. Will storm water discharges flow to adjacent properties?  NO YES	·		
<del></del>		<u> </u>	
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?  If Yes, briefly describe:  NO TYES			

18. Does the proposed action include construction or other activities that result in the impoundment of	NO	YES
water or other liquids (e.g. retention pond, waste lagoon, dam)?  If Yes, explain purpose and size:		
19. Has the site of the proposed action or an adjoining property been the location of an active or closed	NO	YES
solid waste management facility?  If Yes, describe:		
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or	NO	YES
completed) for hazardous waste?  If Yes, describe:		
I AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE KNOWLEDGE	BEST O	FMY

#### Short Environmental Assessment Form Part 2 - Impact Assessment

#### Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2.	Will the proposed action result in a change in the use or intensity of use of land?		
3.	Will the proposed action impair the character or quality of the existing community?		
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7.	Will the proposed action impact existing: a. public / private water supplies?		
	b. public / private wastewater treatment utilities?		
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11.	Will the proposed action create a hazard to environmental resources or human health?		

Agen	cy Use Only [If applicable]

# Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.		
Check this box if you have determined, based on the info that the proposed action will not result in any significant	rmation and analysis above, and any supporting documentation, adverse environmental impacts.	
Name of Lead Agency	Date	
Print or Type Name of Responsible Officer in Lead Agency	Title of Responsible Officer	
Signature of Responsible Officer in Lead Agency	Signature of Preparer (if different from Responsible Officer)	

# State Environmental Quality Review Act (SEQR) Forms

## All Downloadable SEQR Forms are PDF Files

The following Environmental Assessment Forms (Appendices A and B) should be used (as of October 7, 2013) for applications to be submitted to reviewing, funding or approving agencies. If you are new to filling out the EAFs or using the EAF Mapper, or have questions about how to use them, we recommend that you begin with the Environmental Assessment Form (EAF) Workbooks. You may also want to view The New EAFs - EAFs for the 21st Century (PDF) (2.5 MB) which is a training program on using the new (2013) Environmental Assessment Forms, Workbooks and EAF Mapper. EAF forms can be filled out and saved with Acrobat Reader.

- EAF Mapper Application (will generate partially filled-in EAFs)

  The EAF Mapper Application is an Internet-based Geographic Information System (GIS) specifically designed to facilitate the NY State Environmental Quality Review (SEQR) process by answering geographic or place-based questions on the Short and Full Environmental Assessment Forms (EAFs). The EAF Mapper will provide its results by directly filling out many place-based questions in Part 1 of an electronically fillable SEAF or FEAF form and returning the partially completed form to the applicant or sponsor to finish. If you are using the EAF Mapper, do not complete any part of a PDF for either the SEAF or FEAF first. Rather, start with the EAF Mapper and wait for the program to fill in the various answers, then save the document to your computer and continue completing the forms from there. If you start a PDF before running the EAF Mapper, any information entered will be lost when the program applies its GIS data. Help in using the EAF Mapper application is located on the EAF Mapper Application's main page next to "feedback". Additional guidance can be found in the EAF Workbook, under the subsection "Using the EAF Mapper".
- Short Environmental Assessment Form (SEAF) (Appendix B to 6 NYCRR 617.20)
  - o SEAF Part 1 (PDF) (176 KB) Please use if you have computer access
  - SEAF Part 2 & 3 (PDF) (203 KB) <u>Leave blank but print for Planning Board use</u>
- Full Environmental Assessment Form (FEAF) (Appendix A to 6 NYCRR 617.20)
  - Not likely to be needed for projects in Charlton
